2023 INFRASTRUCTURE PROJECTS

Project	Scope	Status
ROAD IMPROVEMENT		
City-Wide Road Repaving	The city is divided into 8 zones in order to implement roadway resurfacing. One zone was previously completed and 7 zones will be paid for through Surtax Funding. Only City-owned roads are included.	Zones 1, 2 and 4 will be paved in 2023. The City has received proposals with work expected to begin early March. See attached map.
Sidewalk Installations	Continue the City's connectivity plan.	A sidewalk section will be installed in the 2000 Block of NE 7 Avenue, which will complete walkability from Townhouse Isle to Wilton Dr, to be completed late January.
WATER DEPARTMENT		
NW 29 St and NW 30 Ct Water Distribution Improvements	Replace water mains and service lines.	In bidding phase, with construction expected to begin in early March.
Wilton Manors West Phase I Distribution Improvements	Replace water mains and service lines.	Engineering design is expected to begin early March.
SEWER DEPARTMENT		
Sanitary Sewer Main Lining	Lift station service areas are cleaned, video recorded and scheduled for lining via the Cast-In-Place-Pipe (CIPP) method.	Lift Station Areas 1, 6 and 7 will begin lining in early February. Lift Station Area 11 will be cleaned, video recorded and lined.
Lift Station 11 Force Main	A new 24" force main line connecting the City to one of Fort Lauderdale's new 42" trunk line will increase the City's flow capabilities to the G.T. Lohmeyer Wastewater Treatment Plant.	Engineering plans are in the permitting phase. Construction is expected to begin in October.
Lift Station and Force Main Replacement Projects	Lift stations and force main lines will be completely replaced.	Lift Stations 1, 4 and 7 are scheduled for 2023. Engineering design to begin early March.
DRAINAGE DEPARTMENT		
NE 24 St and NW 2 Ave Storm System Improvements	Install new drainage.	Engineering design nearing completion with construction to begin in May.
NW 3 Ave Drainage	Replace existing drainage	Engineering design expected to begin in March
